

DOE/EIA-0218(82/23)

Weekly Coal Production

Production for Week Ended:
June 5, 1982

Released for Printing:
June 11, 1982

Energy Information
Administration
Office of Coal, Nuclear,
Electric, and Alternate Fuels
U.S. Department of Energy

Highlights

Production of bituminous coal and lignite in the week ended June 5, 1982, as estimated by the Energy Information Administration, was 15,053,000 short tons. This was a decrease of 1,888,000 short tons or 11.1 percent from production in the previous week due to the Memorial Day holiday. Production in the corresponding week of 1981 was 9,471,000 short tons. Bituminous coal and lignite production from January 1 through June 5, 1982 totaled 375,192,000 short tons, up 26.6 percent from production in 1981.

Production of Pennsylvania anthracite in the week ended June 5, 1982, as estimated by the Energy Information Administration, was 112,000 short tons, a decrease of 14,000 short tons or 11.1 percent from production in the previous week. Production in the corresponding week of 1981 was 105,000 short tons. Anthracite production from January 1 through June 5, 1982 totaled 2,788,000 short tons, up 24.7 percent from production in 1981.

TIRED OF HUNTING FOR THE INFORMATION YOU NEED?

Simplify your search with COMMERCE PUBLICATIONS UPDATE!

Tracking down needed information can be frustrating, expensive, and time consuming. If you're a user of Commerce Department publications, **Commerce Publications Update** can help.

For only \$22 a year, you'll get a handy biweekly newsletter announcing dozens of new U.S. Department of Commerce publications, reports, pamphlets, charts, periodicals—even news releases. You'll get titles, prices, complete ordering instructions, and annotations where appropriate.

Every two weeks, you'll learn what we've issued on exporting . . . current economic indicators . . . housing starts . . . marketing . . . the weather . . . foreign economic trends . . . fisheries . . . telecommunications . . . population . . . and much more.

Get your information the easy way. Use the order card to subscribe to **Commerce Publications Update** today.

Weekly Coal Production provides timely information on coal: current statistics on the production of anthracite, bituminous coal, and lignite are provided each week; monthly, quarterly, and annual statistics on coal consumption, production, stocks, imports and exports, and related supply and demand data are provided as they become available.

Weekly Coal Production is intended for use by the coal industry, the press, State and Federal Governments, policy makers, consumers, and analysts. Weekly coal production estimates are based on current trends in weekly rail carloadings of coal and current coal production trends as reported in *Coal Distribution* (Form EIA-6), monthly and quarterly coal production reports from State mine agencies, and *Coal Production Annual* (Form EIA-7a).

For questions on this and other EIA publications, or for answers to questions on energy statistics, contact:
